

*NYAPPA Annual Meeting and Summer Conference*

*June 14 – 15, 2007*

*Sierra Suites Hotel, Fishkill, NY*

*Leadership in Energy and Environmental Design for Existing Buildings*

*Developing a Balanced Scorecard for Sustainability*

*Annual Meeting and Dinner at the Historic Culinary Institute of America in  
New York's Historic Hudson Valley*

Conference will begin at noon on Thursday June 14

**Steve Keppler, SD Keppler & Associates, LLC**, will provide six hours of training to get you focused on how buildings are registered and certified LEED-EB. Steve has direct program experience at the USGBC and EPA on both the LEED Rating System development and several EnergyStar programs. Steve has guided and supported nine buildings certified under LEED. Within these nine buildings is a LEED-EB building for Duke University and one for National Geographic. Other LEED projects include LEED for New Construction, and Commercial Interiors. Steve is currently involved in 12 projects tracking towards LEED certification by the USGBC.

Thursday evening June 14

Dinner and Annual Meeting (all inclusive with registration); Coach buses will transport us to the campus of the Culinary Institute of America overlooking the scenic Hudson River in Hyde Park where we will enjoy a gourmet dinner in the historic St. Andrews Café.

Friday June 15, 9am – 1pm; Continuation of Session 1 and Session 2

**Maureen K. Roskoski, Facility Engineering Associates, P.C.** will provide two hours of training on FEA's system for developing your own balanced scorecard for sustainability of campus facilities. This presentation will address the key operational aspects of facilities that contribute to Sustainable Facility Management (SFM). Maureen will review the steps developed for American University to measure and score their sustainable practices using a Sustainability Scorecard<sup>®</sup>. You will hear examples of Key Performance Indicators (KPIs) that measures the effectiveness of the program. This system was developed using the LEED-EB criteria as a guideline, then adding operational characteristics and organizational goals to create an integrated approach to SFM. Web site: [www.feapc.com](http://www.feapc.com)

Golf will be available on Friday afternoon for additional cost.
